

**COUNTY/DISTRICT WEED INVENTORY  
FORM 1**

***INSTRUCTIONS FOR FILLING OUT COUNTY/DISTRICT FORM 1***

The vital information on this form is the number of BLM ACRES INVENTORIED, INFESTED ACRES INVENTORIED, and INFESTED ACRES ESTIMATED for each non-native invasive plant species identified on the attached list in each county in each district. The basis of the information on this form is by COUNTY. Use one form(s) per county/district.

The definition of infested acres is an area of land containing a target weed species. An infested area is mapped by drawing a line around the boundary of the infestation, excluding large areas not infested. Consider only the area canopied by weeds as being infested. Record as acres infested, or tenths of an acre when less than an acre is occupied. Any infestation less than one-tenth of an acre; i.e., a single weed plant or occasional weed plants, is to be documented as one-tenth of an acre.

1. **DATE**--Enter the date by month and year.
2. **STATE**--Name of the State.
3. **DISTRICT**--Name of the district (or equivalent to that level of the organization). If you decide to also develop the information by Resource Area, you can develop a similar form.
4. **COUNTY**--Name of the county for which this form is being filled out.
5. **NUMBER OF ACRES IN COUNTY IN DISTRICT**--Enter the total number of acres in the county within the district.
6. **NUMBER OF BLM ACRES IN COUNTY IN DISTRICT**--Enter the total number of acres of BLM land in the county within the district.
7. **ACRES INVENTORIED**--Enter the total number of BLM acres, rounded off to hundreds of acres, inventoried for weeds in the county/district.
8. **POINT OF CONTACT**--Name of the person completing this form.
9. **TELEPHONE NUMBER**--Telephone number of the person completing this form.
10. **ELECTRONIC MAIL ADDRESS**--Email address of the person completing this form.
11. **BLM WEED ACREAGE TABLE**

***Species***--Use the attached non-native invasive plant species list to fill in this table. List the species by common name and scientific name. Use a separate form to list species not on the plant list.

***Infested Acres Inventoried***--For each species, enter the number of BLM infested acres found in the county/district during the field inventories. The definition of infested acres inventoried is an area of land containing a target weed species that has been mapped by GPS and digitized by GIS or other methods accurately showing what land is infested. If there are over 100 acres, round off to the nearest hundred. Any infestation less than one-tenth of an acre; i.e., a single weed plant or occasional weed plants, is to be documented as one-tenth of an acre.

***Infested Acres Estimated***--For each species, enter the number of BLM infested acres estimated in the county/district. If there are over 100 acres, round off to the nearest hundred. The definition of infested acres estimated is an area of land that is delineated on a map where known infestations of target weed species are established, but ground proofing is limited on the exact extent of infestation.

***Comments***--Write in clarifying or additional information such as explaining changes in acreage figures, noting new invading species, etc.

***Totals, Acres Inventoried***--Add the total number of acres for all species listed on the non-native invasive plant list.

***Totals, Infested Acres Inventoried***--Add the total number of acres for all species listed on the non-native invasive plant list.

***Totals, Infested Acres Estimated***--Add the total number of acres for all species listed on the non-native invasive plant list.
